

THE MASSACHUSETTS STATE BUILDING CODE

FOREWORD and ACKNOWLEDGMENTS

THE MASSACHUSETTS STATE BUILDING CODE (780 CMR), *SIXTH EDITION*

FOREWORD

The *Sixth Edition* of 780 CMR, the Massachusetts State Building Code has been revised from the *Fifth Edition* to make it consistent with the common code format of the National Code, the Uniform Building Code and the Southern Building Code, both in chapter and sub-chapter numbering. The technical content is based on the 1993 edition of the Building Officials and Code Administrators (BOCA) National Building Code. Extensive technical changes have been made as a result of reviews by the BBRs technical advisory committees, listed in this section, and also as required by Massachusetts General Laws and Specialized Codes and Regulations.

Chapter 36, the *One and Two Family Dwelling Code*, has been revised from the *Fifth* to the *Sixth Edition* to make it consistent with the 1995 edition of the CABO One and Two Family Dwelling Code to the extent practicable. Substantive changes have been made as a result of reviews by the BBRs staff, state and municipal building officials, and technical advisory boards.
